

Belt Pack/Communicator

PREVENTIVE MAINTENANCE

- ▶ Turn the belt pack "Off" before changing batteries or storing units.
- ▶ Store belt packs with headsets connected to prevent damage.
- ▶ Don't use sharp objects to press buttons on belt pack.
- ▶ If there is a screw loose, tighten it.
- ▶ If a belt pack isn't working, don't bang it.
- ▶ If the volume pot is loose, stop using the belt pack and report the problem immediately.
- ▶ Don't try to make repairs yourself, you could end up damaging the belt pack or voiding any warranty.
- ▶ Belt packs should be securely fastened, so they don't fall out of the pouch.
