

Wearing The **RF[®]** Headset

You've just received a new headset. Now What?

After removing the headset from packaging, hold wire headband in one hand and rotate ear phone housing with other to position earphone and mic boom for either left or right side of head.

Close positioning of mic is not critical as it's sensitivity picks up the voice clearly even when two or three inches away from mouth.

WARNING:
ALL RF MIC BOOMS ARE NOT DESIGNED
TO ROTATE IN A COMPLETE CIRCLE.
DO NOT FORCE OR WARRANTY CAN BE
VOIDED FROM ABUSE.

Go Ahead, Give Us A Call.
